SARAS CASUALTY & DAMAGE ASSESSMENT REPORT

AUTONOMOUS SEARCH & RESCUE SWARM • RECONNAISSANCE & AI TRIAGE DOSSIER

SARAS-SOP-52140

Report Date: 07 Oct 2026, 11:19 AM IST
Zulu Time: 2026-10-07 05:49:00 UTC
GCS Coordinates: 12.97160° N, 77.59460° E

4	2	2	0
TOTAL CASUALTIES DETECTED	CRITICAL (IMMEDIATE EVAC)	URGENT (DELAYED / STABILIZE)	STABLE (MONITOR / AMBULATORY)

MASTER CASUALTY PRIORITY MATRIX (SORTED STRICTLY BY URGENCY SCORE)

RANK	CASUALTY ID	TRIAGE CLASS	GPS FIX (LAT / LON)	GCS RANGE	FLIR TEMP	PRIMARY HAZARDS	ACTIONABLE DIRECTIVE
#1	VIC-102	CRITICAL 100.0/100	12.977240° N 77.593640° E ↗	934.9 m	38.6°C	#debris #fire_proximity #unresponsive	IMMEDIATE EVACUATION: Deploy fire barrier fog curtain and rapid air-evacuation hoist.
#2	VIC-101	CRITICAL 90.0/100	12.974360° N 77.595200° E ↗	588.5 m	34.2°C	#flood #hypothermia #swiftwater	IMMEDIATE EXTRACTION: Dispatch Swiftwater Rescue Boat & aerial hoist. Deploy hypothermia warming kit.
#3	VIC-103	URGENT 60.0/100	12.976200° N 77.600840° E ↗	960.0 m	36.8°C	#landslide #conscious #pinned	URGENT EXTINCTION: Deploy USAR team with hydraulic spreaders, shoring cribbing, and crush IV kit.
#4	VIC-104	URGENT 55.0/100	12.973000° N 77.599160° E ↗	566.2 m	36.2°C	#isolated #roof_stranded	AERIAL DROP & FLOOD EVAC: Drop emergency flotation vests + VHF radio; dispatch shallow-draft skiff.

SWARM RECONNAISSANCE FLEET STATUS

UAV IDENTIFIER	AVIONICS STATE	BATTERY	ACTIVE ASSIGNMENT	AIRSPACE TELEMETRY FIX
UAV Fleet (1-4)	AUTONOMOUS PATROL	NOMINAL (>75%)	SECTOR-01 to 04	DYNAMIC GRID SWEEP

MISSION PROTOCOL NOTICE: All casualty locations have been georeferenced via RTK GPS downlinks from UAV telemetry. Prioritization follows the START (Simple Triage And Rapid Treatment) protocol enhanced with real-time FLIR thermal body core tracking and AI hazard analysis. Individual casualty inspection dossiers with aerial optical/thermal captures continue on Page 2.

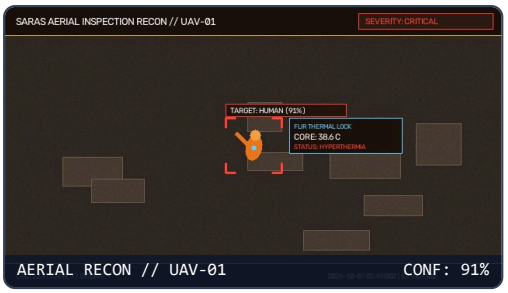

INDIVIDUAL CASUALTY INSPECTION DOSSIERS

HIGH-RESOLUTION OPTICAL/THERMAL AERIAL RECON • REAL-TIME GPS COORDINATES • SOP PROTOCOLS

SARAS-SOP-52140

PRIORITY #1 VIC-102

CRITICAL 100.0 /100

Target: HUMAN (91%) Sensor: 4K Optical + FLIR

GPS LATITUDE	GPS LONGITUDE
12.977240° N	77.593640° E
DISTANCE FROM GCS	FLIR CORE BODY TEMP
934.9 meters	38.6°C (HYPERTHERMIA HAZARD)

Google Maps Live Fix: 12.977240, 77.593640 ↗

HAZARDS DETECTED: #debris #fire_proximity #unresponsive

CLINICAL OBSERVATION:

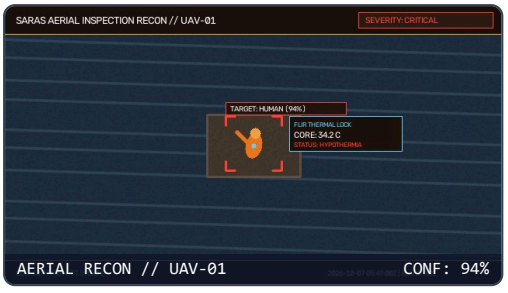

> Severe structural collapse. Fire hazard 20m East.

FIELD DISPATCH ACTION SOP-103 SOP-105

IMMEDIATE EVACUATION: Deploy fire barrier fog curtain and rapid air-evacuation hoist.

PRIORITY #2 VIC-101

CRITICAL 90.0 /100

Target: HUMAN (94%) Sensor: 4K Optical + FLIR

GPS LATITUDE	GPS LONGITUDE
12.974360° N	77.595200° E
DISTANCE FROM GCS	FLIR CORE BODY TEMP
588.5 meters	34.2°C (HYPOTHERMIA HAZARD)

Google Maps Live Fix: 12.974360, 77.595200 ↗

HAZARDS DETECTED: #flood #hypothermia #swiftwater

CLINICAL OBSERVATION:

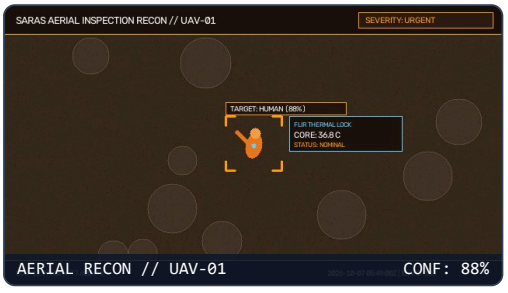

> Victim clinging to submerged structure. Moderate current.

FIELD DISPATCH ACTION SOP-101 SOP-105

IMMEDIATE EXTRACTION: Dispatch Swiftwater Rescue Boat & aerial hoist. Deploy hypothermia warming kit.

PRIORITY #3 VIC-103

URGENT 60.0 /100

Target: HUMAN (88%) Sensor: 4K Optical + FLIR

GPS LATITUDE	GPS LONGITUDE
12.976200° N	77.600840° E
DISTANCE FROM GCS	FLIR CORE BODY TEMP
960.0 meters	36.8°C (VITAL RANGE NOMINAL)

Google Maps Live Fix: 12.976200, 77.600840 ↗

HAZARDS DETECTED: #landslide #conscious #pinned

CLINICAL OBSERVATION:

> Lower limb entrapped under mudflow boulder. Conscious and waving.

FIELD DISPATCH ACTION SOP-102 SOP-105

URGENT EXTINCTION: Deploy USAR team with hydraulic spreaders, shoring cribbing, and crush IV kit.

PRIORITY #4 **VIC-104** **URGENT** **55.0** /100

Target: HUMAN (96%) Sensor: 4K Optical + FLIR

GPS LATITUDE	GPS LONGITUDE
12.973000° N	77.599160° E
DISTANCE FROM GCS	**FLIR CORE BODY TEMP**
566.2 meters	36.2°C (VITAL RANGE NOMINAL)

Google Maps Live Fix: 12.973000, 77.599160 ↗

HAZARDS DETECTED: #isolated #roof_stranded

CLINICAL OBSERVATION:

> Family of 2 stranded on residential roof surrounded by 1.5m flood.

FIELD DISPATCH ACTION SOP-106

AERIAL DROP & FLOOD EVAC: Drop emergency flotation vests + VHF radio; dispatch shallow-draft skiff.

S.A.R. INCIDENT COMMANDER [VERIFIED]

I hereby certify that the aerial reconnaissance data, geolocations, and swarm triage assessments have been verified for ground dispatch.

COMMAND CLEARANCE ID: SARAS-EXEC-CMD-01 • 2026-10-07 05:49:00 UTC

EMERGENCY MEDICAL DISPATCH LEAD [TRIAGED]

Medical triage scores and FLIR core temperature assessments reviewed. Evacuation priorities confirmed according to emergency protocols.

TRIAGE OFFICER LICENSE: MED-SAR-TR-882 • 2026-10-07 05:49:00 UTC
