**Department of Computer Science and Engineering**
**AMAL JYOTHI COLLEGE OF ENGINEERING**
**GUIDELINES FOR SEMINAR and SEMINAR PRESENTATION**

## 1. Topic Selection

- **Core Relevance**: The selected topic must be within the core areas of Computer Science and Engineering. Choose a current, broad-based topic rather than a very specific research work.
- **Project Linkage**: The seminar topic should be closely linked to the final year project area.

## 2. Source, Extended Abstract and Approval

- **Reputed Sources**: Base the seminar topic on reputed and indexed international journal papers (years 2022-2026).
  - **Example Journal**: **Machine Learning**, Impact Factor 3.641 (Web of Science)- H index 155 (Google) -Impact Factor 7.105 (Scopus).
  - IEEE Xplore Digital Library, ACM Digital Library, ScienceDirect,SpringerLink

- **Extended abstract**: Submit an extended abstract within 500-600 words. The abstract should include:
  (i) Relevance of the topic in the present scenario.
  (ii) Works carried out.
  (iii) Brief of the results.

- **Abstract Submission:** Submit hard copies of the abstract and base paper to the Guide for approval **immediately after topic finalization**. Also upload the same in the drive shared and paste the link to the file in the google sheet shared.

- **PowerPoint Slides**: Get the seminar PowerPoint slides approved by the Guide **at least three working days before the seminar**.

- **Base paper Submission**: Submit a report to the panel at the time of presentation, which includes the base paper and the front page of the PPT signed/verified by the guide.

## 3. Seminar Presentation

- **Time Allocation**:
  - Presentation: 15 minutes.
  - Q&A, Discussion: 10 minutes.
- **Slide Limit**: Presentation slides should be limited to 18-20 slides.
- **Slide Order**:

**PPT Content Instructions**

1. **Title Slide**
    - Title of the Seminar
    - Your Name
    - Roll Number
    - Department
    - Date
2. **Contents Slide**
    - List of sections/topics covered in the presentation
3. **Introduction Slide**
    - Brief introduction to the topic
    - Importance and relevance of the topic
4. **Existing works/Literature Survey Slide**
    - Summary of related works**(Minimum 3)**
    - Key findings from literature
5. **Objectives Slide**
    - Clear and concise objectives of the seminar
6. **Methodology / Work Carried Out Slide/s**
    - Steps taken in your base paper / related areas
    - Methods and techniques used
7. **Results and Discussions Slide/s**
    - Key results obtained
    - Interpretation and discussion of results
8. **Conclusion and Future work Slide**
    - Summary of findings
    - Implications of the results
    - Future work
9. **References Slide**
    - List of all references used
    - Format in a standard citation style
10. **Acknowledgements Slide**
    - Thank individuals that helped in your work
11. **Questions Slide**

**General Tips**

- **Bullet Points**: Use bullet points instead of paragraphs.
- **Visual Aids**: Include charts, graphs, and images to illustrate points.
- **Font Size**: Ensure the text is readable.
- **Consistency**: Maintain a consistent style and format throughout the slides.
- **Clarity**: Be clear and concise; avoid cluttering slides with too much information.

- **Timing**: Practice to ensure you can cover all slides within the allotted time (15 minutes presentation).
- **Numbering**: Include slide nos., figure nos., table nos. etc

**4. Post-Presentation**

- **Draft Report**: Submit a hard copy of the draft seminar report in **LaTeX** format for approval to Guide within seven days after the seminar.
- **Final Report**: Submit the completed seminar report and evaluated draft copy within two weeks after the seminar to Guide and then to the Seminar coordinator.

**5. Seminar Diary**

- Maintain a detailed seminar log book that records all aspects of your seminar journey, including topic selection, research progress, feedback, and questions asked during the seminar(Template).
- Hold weekly meetings with your Guide to review and update your seminar diary. The diary should be submitted to the seminar coordinator for verification when asked for.

**6. Evaluation**

- **Panel**: The seminar presentation will be evaluated by a panel(IEC) consisting of the academic coordinator, seminar coordinators, guide, and subject expert.
- **Knowledge Check**: If the panel feels that the student lacks sufficient knowledge, they may be asked to repeat the seminar.
- **Questions**: Students are encouraged to ask questions during the presentation.
- **Language**: The seminar should be conducted in English without the use of mobile phones or paper/books.
- **Uniform**: Students must be in full uniform, including an ID card.
- **Mark distribution**:

  **Seminar Guide:** 20 marks (Background Knowledge – 10 (The guide shall give deserving marks for a candidate based on the candidate's background knowledge about the topic selected), Relevance of the paper/topic selected – 10).
  **Seminar Coordinator:** 20 marks (Seminar Diary – 10 (Each student shall maintain a seminar diary and the guide shall monitor the progress of the seminar work on a weekly basis and shall approve the entries in the seminar diary during the weekly meeting with the student), Attendance – 10).
  **Presentation:** 40 marks to be awarded by the IEC (Clarity of presentation – 10, Interactions – 10 (to be based on the candidate's ability to answer questions during the interactive session of her/his presentation), Overall participation – 10 (to be given based on her/his involvement during interactive sessions of presentations by other students), Quality of the slides – 10).
  **Report:** 20 marks to be awarded by the IEC (check for technical content, overall quality, templates followed, adequacy of references, etc.).

## 7. Additional Guidelines

- **Question Documentation**: Document all the questions asked by the panel and students, along with their answers, in a separate sheet. Attach it to the seminar logbook and submit it to the coordinator.
